Certifications

- Github Copilot Certified

Work Experience

System Engineer — Tata Consultancy Services	Jun 2021 - Present
---	--------------------

UI Developer

Projects

Enterprise Visualization Platform for web application-UI components	33 Months
---	-----------

- Built and maintained reusable UI components for internal component libraries.
- Styled views using Tailwind CSS and Styled Components for custom design systems.
- Optimized performance using React.memo, lazy loading, and code splitting, improving page load time by 35%.
- Implemented unit tests using Jest and React Testing Library, achieving 90%+ code coverage.
- Optimized rendering and DOM updates, improving Lighthouse performance score by 20%.
- Collaborated with designers and backend teams to deliver responsive, cross-browser-compatible UIs.
- Integrated TanStack Query and Fetch API for efficient data handling and caching.

Bedside Monitor and Potrait Viewer Application	18 Months
--	-----------

- Designed and developed reusable, testable components using React
- Managed complex state using Redux and Context API
- Used React Hooks extensively for functional component logic
- Applied Tailwind CSS for layout structure and Styled Components for scoped styling
- Collaborated in Agile teams, using Git and GitHub for source control
- Ensured application responsiveness, accessibility, and performance optimization

Education

B.Tech/B.E. Electrical and Electronics	2021
Sastra University	
Grade - 9.085/10	

Accomplishments

- Recognized by the client for refactoring complex components into modular, testable units, significantly enhancing code reusability across multiple product features.
- Enhanced rendering efficiency and minimized DOM reflows, boosting Lighthouse performance score by 20%.
- Consistently recognized with awards and appreciation emails for timely deliveries, handling ad-hoc requirement changes, and resolving critical bugs during major releases under tight deadlines.
